

Alaska 7.0 Earthquake Dec 2018 videos & articles of interest

Event footage, response

Good general coverage montage video from CNN day of the event (video)

<https://www.cnn.com/videos/us/2018/11/30/alaska-earthquake-hide-in-courthouse-nr-vpx.ktva/video/playlists/alaska-earthquake/>

Middle school class room video, “well oiled machine” action, instructions to text, cover mouths against dust, keeps the kids under until evacuation alert sounds at 3:20. (short story, video)

<https://www.adn.com/alaska-news/anchorage/2018/12/04/this-classroom-footage-captures-anchorage-students-reacting-perfectly-to-the-earthquake/>

This video shows what happens to the lights in anchorage as the earthquake hits, watch the background horizon (video)

<https://twitter.com/ggervelis/status/1068564311356903426>

This second video one shows what to do (eventually after hesitation) and what not to do (the cameraman) when the earth starts shaking.(video).

Damage to the ABC studio in Anchorage (photo)

<https://twitter.com/cassieschirmtv/status/1068571410363146240>

Story about an entire neighborhood where the houses have been impacted and yellow flagged (written story and video)

<https://www.ktuu.com/content/news/Alaska-Earthquake-2018-Cluster-of-Jewel-Lake-Homes-Significantly-Damaged-502131031.html>

Cracks that are continuing to grow with aftershocks, landslide concerns (story and video)

<https://www.ktuu.com/content/news/Alaska-Earthquake-2018-Cracking-Soil-Concerns-502038512.html>

Government communications breakdown in Mat-Su Borough, (story)

<http://www.govtech.com/em/preparedness/Mea-Culpa-Mat-Su-Borough-Faces-Criticism-of-Post-Quake-Public-Information.html>

Emergency Mgmt magazine, story about building inspections and sheltering, two weeks afterward (describes the issues with getting inspections done)

<http://www.govtech.com/em/disaster/-For-Many-Southcentral-Alaska-families-the-Quake-Isnt-Over-Dozens-are-Still-Displaced-From-unsafe-Homes.html>

Tech info, data

Earthquake map for Alaska, view the ongoing aftershocks.

<http://earthquake.alaska.edu/earthquakes>

US Geological Survey visualization of Anchorage Atwood building (apparently one of their newer, taller buildings) and its motion during the earthquake. Note that the scale is in centimeters, and the motion magnified so the sway and twist is more visible, so don't have a heart attack (video)

<https://www.ktuu.com/content/news/Watch-the-Atwood-building-sway-from-the-70-earthquake-503073371.html>

Press conferences

Yet to be explored for information that would help the hubs think “ahead” is the series of briefings from Anchorage city officials, their press conferences were all posted on the Anchorage Police Dept Facebook page under videos. If anyone has time to view these and send out info and things we should think about, please do so! (videos)

And finally, humor

This is a great trove for memes and other funny ways to deal with the situation. My favorite was the restocking so that glass breakage is a thing of the past. (story, pictures)
